GPA
3.17 / 4.0

CERTIFICATIONS

Professional Scrum Master I
Scrum.org
📅 04/2023

Advanced Software Development in Full-Stack JavaScript
Code Fellows / LTUC
📅 10/2021

EXPERIENCE

Full Stack Developer (Freelance)
PayOne
📅 10/2023 - Present 📍 Amman, Jordan

A leading payment gateway technology provider operating in the MENA region.
- **Billing System:** Engineered an automated system which dynamically generates monthly invoices for customers, adaptable to real-time service changes and account modifications.
- **Reporting System:** Designed and developed a reporting web application integrated with analytical charts, offering both daily and monthly insights.

Software Developer
FiberTech
📅 11/2021 - 10/2023 📍 Amman, Jordan

The first Jordan's wholesale fiber to the home network.
- **Workflow Automation:** Implemented systematic cycles automating key services, such as FTTH activation, FTTB activation, FTTR service, and replacement service.
- **Network Management System:** Improved in-house web app functionalities, introducing dashboards, export capabilities, and automated order assignments for heightened operational efficiency.
- **Smart Meter Automation:** Led the development of a comprehensive automation solution for Jordan Electric Power Company, minimizing manual efforts through tailored scripts and advanced API integration.
- **Activation Mobile App:** Developed a React Native app with face authentication, real-time mapping, and SIP calling, optimizing customer activation processes.
- **HR Management System:** Developed an HR webapp for efficient management of performance appraisal, probation, and contracts.
- **Billing System:** Engineered an automated billing system, dynamically generating monthly invoices for customers, adaptable to real-time service changes and account modifications.
